• French

• English

## PROFILE INFO

I am an engineering student always been very interested in the different parts of the engineering profession. I am currently learning in the field of digital sciences at ENSEEIHT in Toulouse to master skills in the field of computer science.

I used python, C#, Arduino, and raspberry pi to make multiple personal projects and I am always looking for new challenges.

## LEARNING EXPERIENCE

**ENSEEIH** engineering school,  
**digital science field**

**2022-Now**

School in the field of digital sciences.

Current goal : **Mastering personals skills** in the field of **computer science**.

**Classe préparatoire au grandes  
écoles**

**2020-2022**

Intensive two-year preparatory class to enter french engineering "grandes écoles".

Skills learned:

**Group work** against adversity

**Autonomy** and **work discipline**

**Time and stress management** to keep up with workload

**Advanced problem solving.**

## MY SKILLS & EXPERTISE

Python

C#

SQL
